

Pravin Shankar

23571 BPO Way, Piscataway, NJ 08854

Ph: (732) 789-6760

email: spravin@cs.rutgers.edu

Areas of Interest Mobile systems, wireless networks, vehicular networks, distributed systems, pervasive computing, social networks, systems security and location privacy.

Education *PhD Candidate* in Computer Science Fall 2004 - Present
Rutgers University, NJ Advisor: Dr. Liviu Iftode Current GPA: 3.9

M.Sc. in Software Engg. (5 year Integrated Masters) Aug 1998 - May 2003
PSG College of Technology, Coimbatore, India GPA: 3.67

Academic Honors

- Teaching/Research Asst at CS Dept., Rutgers University. Fall 2004 to Present
- DIMACS Graduate Student Award. Winter 2007-08

Work Experience **Siemens Corporate Research** Intern
Princeton, NJ Summer 2007
Context-Aware Opportunistic Scheduling for Vehicular Networks (VANETs)

- Developed an algorithm for opportunistic packet scheduling in VANETs which uses context information (speed and distance from neighboring cars) to determine the optimal transmission schedule while avoiding the need for channel probing.

Telcordia Research Lab Intern
Piscataway, NJ Summer 2005
Designed an IP Multimedia Subsystem (IMS) based platform for application services creation and execution

- Developed a service creation platform for creating, testing and deploying IMS services and built a working prototype of Call Notification service using this platform.

Novell Inc. Senior Software Engineer
Bangalore, India May 2003 - July 2004
Developer - Novell Zenworks Desktop and Server Remote Management solution

- Involved in the development of Linux and Solaris hardware scanner modules of Novell ZenWorks. Promoted to Senior Software Engineer within one year of joining.

Novell Inc. Intern
Bangalore, India Nov 2002 - May 2003
Design and implementation of an efficient multicast routing algorithm

- Designed and implemented Protocol Independent Multicast - Dense Mode (PIM-DM) routing protocol on the TCP/IP Protocol Stack of Novell NetWare 6

Novell Inc. Intern
Bangalore, India Apr 2001 - Nov 2001
Remote network configuration and monitoring tool for Novell NetWare 6.

- Designed and implemented a tool for remote configuration and monitoring of the TCP/IP stack. The tool was subsequently integrated into Novell NetWare 6.

Publications

- Ad-hoc Voice-based Group Communication
Lu Han, Stephen Smaldone, Pravin Shankar, Liviu Iftode. In Proceedings of the 8th Annual IEEE International Conference on Pervasive Computing and Communications (PERCOM 2010), March-April, 2010.
- News Posting by Strategic Users in a Social Network
Mangesh Gupte, MohammadTaghi Hajiaghayi, Lu Han, Liviu Iftode, Pravin Shankar

and Raluca Ursu. In Proceedings of the 5th International Workshop on Internet and Network Economics (WINE 2009), December 2009.

- Privately Querying Location-based Services with SybilQuery
Pravin Shankar, Vinod Ganapathy, Liviu Iftode. In the Proceedings of the 11th International Conference on Ubiquitous Computing (UbiComp 2009), September-October 2009.
- CARS: Context Aware Rate Selection for Vehicular Networks
Pravin Shankar, Tamer Nadeem, Justinian Rosca, Liviu Iftode. In the Proceedings of the 16th IEEE International Conference on Network Protocols (ICNP 2008), October 2008.
- RoadSpeak: Enabling Voice Chat on Roadways using Vehicular Social Networks
Stephen Smaldone, Lu Han, Pravin Shankar and Liviu Iftode. In the Proceedings of the First International Workshop on Social Network Systems (SocialNets'08, in conjunction with EuroSys), April 2008.
- The Impact of DSRC Channel Switching on TCP Performance
Pravin Shankar, Liviu Iftode. Rutgers Technical Report, July 2008.
- Effect of Antenna Placement and Diversity on Vehicular Network Communications
Sanjit Kaul, Kishore Ramachandran, Pravin Shankar, Sangho Oh, Marco Gruteser, Ivan Seskar, Tamer Nadeem. In Proceedings of the Fourth Annual IEEE Communications Society Conference on Sensor, Mesh and Ad Hoc Communications and Networks (SECON 2007), June 2007.
- A Comparative Study of Data Dissemination Models for VANETs
Tamer Nadeem, Pravin Shankar and Liviu Iftode. 3rd Annual International Conference on Mobile and Ubiquitous Systems: Networks and Services (MOBIQUITOUS 2006), July 2006.
- Indoor Localization Using Camera Phones
Nishkam Ravi, Pravin Shankar, Andrew Frankel, Ahmed Elgammal and Liviu Iftode. In the Proceedings of the 7th IEEE Workshop on Mobile Computing Systems and Applications (WMCSA 2006), April 2006.
- NegotiatedWiFi: An Architecture for Opening Closed WiFi Access Points
Pravin Shankar, Badri Nath, Liviu Iftode. Under preparation.

Talks

- Privately Querying Location-based Services with SybilQuery, the 11th International Conference on Ubiquitous Computing (UbiComp 2009), Orlando, FL, September-October 2009.
- CARS: Context Aware Rate Selection for Vehicular Networks, the 16th IEEE International Conference on Network Protocols (ICNP 2008), Orlando, FL, October 2008.
- A Content Delivery Protocol for Vehicles using Hybrid Wifi/3G Networks, The 3rd Helsinki-Rutgers PhD Student Workshop on Spontaneous Networking, Rutgers University, NJ, May 2008.
- Context Aware Rate Adaptation for Vehicular Adhoc Networks, The 2nd Helsinki-Rutgers PhD Student Workshop on Spontaneous Networking, Helsinki, Finland, May 28 - June 1, 2007.
- Designing an Inter-vehicular network stack for Car-to-Car communication, Phenix Workshop, IRISA, Rennes, France, December 2005.
- Service Creation and Execution Platform for IP Multimedia Subsystem (IMS), Strategic Project Demo, Telcordia Applied Research, August 2005.

Patents

- Information Posting by Strategic Users in a Social Network. Mangesh Gupte, MohammadTaghi Hajiaghayi, Lu Han, Liviu Iftode, Pravin Shankar and Raluca Ursu, filed as provisional Patent Application 2009P1209-1065US.
- Context Aware Rate Selection for Vehicular Networks. Pravin Shankar, Liviu Iftode, Tamer Nadeem, Justinian Rosca, filed as provisional Patent Application 2007P11191US.

Other Projects

TrafficView

September 2005 - Apr 2007

TrafficView is a system that uses car-to-car wireless communication to exchange both immediate and distant traffic-related information for real-time safety warnings and route planning. Implemented a prototype of the TrafficView system and performed an outdoor demonstration of the system with 5 cars.

Demo link: <http://discolab.rutgers.edu/traffic/tvdemo.html>

Skills

- *Systems Programming*: Linux wireless networking stack, Sockets programming (TCP/IP), libpcap, driver-level programming experience (Madwifi, Intel IPW2200), Click modular router, OpenMoko (ARM).
- *Languages*: C, C++, Python, Perl, Java, HTML/Javascript, Shell Scripting (sed/awk).

Service

- ACM and IEEE student member.
- Invited as an external reviewer for major conferences and journals including Usenix Annual Technical Conference, ICDCS, Mobiquitous, ACM MASS, IEEE WCNC, WIVEC, IEEE Transactions on Mobile Computing, Transactions on Vehicular Technology and IEEE Pervasive Computing.
